BANK OF ALBANIA
NOTES TO THE FINANCIAL STATEMENTS

AS AT MAY 2008

(all amounts are expressed in million LEK, unless otherwise stated)

1. GENERAL INFORMATION

The Bank of Albania (“the Bank”) is the Central Bank of the Republic of Albania, carrying out its activity according to the Law No. 8269 dated 23.12.1997 “On the Bank of Albania”. For the implementation of this law the Bank’s main responsibilities are:

- establish and maintain price stability;
- supporting the development of a foreign exchange regime;
- management of money in circulation;
- management of interest rates;
- compilation, approbation and application of monetary policy of the Republic of Albania;
- supervision of commercial bank activities including issuance of licenses to all banks; and
- issuing of licenses for international banking institutions operating within the Republic of Albania.

The Bank is subject to the regulatory requirements of the Parliament of the Republic of Albania and the Law “On the Bank of Albania”.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation of financial statements

The financial statements are compiled in accordance with the Albanian Law “On Accounting and Financial Statements” and in accordance with accounting policies adopted by in the Accounting Manual of the Bank of Albania, approved by the Council of Minister of the Republic of Albania with the Decision No. 50, dated 26.01.2001. This accounting policy is broadly in line with the International Financial Reporting Standards (IFRS) approved by the International Accounting Standards Board (IASB). IFRS are used in the preparation of the accompanying financial statements to the extent they do not contradict to the Law “On the Bank of Albania”.

The significant accounting policies used by the Bank in preparing these financial statements are set out as below:

The financial statements presented include the accounts of the Bank, prepared on the historical cost basis of accounting combined with elements of other methods, which are based on the market value, modified to include the revaluation of securities portfolio, foreign currency and gold, the head office building, and other financial assets and liabilities.

The accompanying financial statements are presented in the national currency of the Republic of Albania, the Albanian Lek (“LEK”).

BANK OF ALBANIA
NOTES TO THE FINANCIAL STATEMENTS

AS AT MAY 2008

(all amounts are expressed in million LEK, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation of financial statements (continued)

The Bank controls the operations of the Printing House, a business entity engaged in the printing of Government high security material and publications of Bank of Albania. The Supervisory Council of the Bank of Albania at the meeting dated April 1, 2003 decided that the Printing House should be under the supervision of Bank of Albania as a separated part of the organizational structure of Bank of Albania.

The Council of Minister upon the Decision Nr. 598, dated September 5, 2007 decided the termination of the economic and financial activity of the Printing House on March 31, 2008.

The Bank has not consolidated the financial operations of the Printing House due to its unclear status related to the ownership with the Government of Albania. This year, due to the closure of its activity at the end of March 2008, there is not made any consolidation of the financial statements.

(b) Deviation from International Financial Reporting Standards

The following is a summary of the most significant deviations from IFRS:

- IAS 19 “Employee Benefits” and IAS 26 “Accounting and Reporting by Retirement Benefit Plans”.

Reporting and accounting of Pension Fund is not still prepared in accordance with IAS 19 and IAS 26. Obligation due to Pension Fund is expressed as net value, but the calculation of this obligation is not in compliance with specifics of accounting standards to the extent that no actuarial estimation is performed. The Regulation approved during the year 2007 stipulates the function of this fund as a defined contribution fund, by disclosing the accounting treatment of the pension fund in compliance with the above mentioned standards.

- IAS 27 “Consolidated Financial Statement and Accounting for Investments in Subsidiaries.

The financial operations of the Printing House under the administration of the Bank have not been consolidated with those of the Bank, as it is explained above.

- IFRS 7 “Financial Instruments: Disclosures”.

The bank has not presented all disclosures related with the policies and procedures for managing, measuring and monitoring the risks that the bank faces and other disclosure as required by IFRS 7 “Financial Instruments: Disclosures”.

BANK OF ALBANIA**NOTES TO THE FINANCIAL STATEMENTS****AS AT MAY 2008****(all amounts are expressed in million LEK, unless otherwise stated)****2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****(c) Interest and commission recognition**

Interest income and expense are recognized in the income statement on an accrual basis. Interest income and expense include the interest earned on coupons, as well as the amortization of any discount or premium or other differences between the initial carrying amount of an interest bearing instrument and its amount at maturity calculated on a straight line basis

Fee and commission income and expenses arise on financial services provided by the Bank and are recognized when the corresponding service is provided. Other operating income/expense includes gains and losses arising from disposals and changes in the fair value of financial assets and liabilities held for trading and available for sale assets.

(d) Foreign currency translation

Transactions in foreign currencies are translated in LEK and recorded at the rates of exchange prevailing at the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the balance sheet date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences initially are recognized in profit or loss in the period in which they arise, and after that transferred in "Revaluation reserves" in capital, according to the Law No. 8269, dated December 23, 1997 "On the Bank of Albania".

The applicable official Bank rate (LEK to the foreign currency unit) for the principal currencies as at April 30 and March 31, 2008 were as below:

BANK OF ALBANIA**NOTES TO THE FINANCIAL STATEMENTS****AS AT MAY 2008****(all amounts are expressed in million LEK, unless otherwise stated)****2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****(e) Financial assets**

All the financial assets are initially measured at fair value of the consideration given plus, transaction costs that are directly attributable to the acquisition of the financial asset.

Financial assets are classified as follows:

Loans originated by Bank

Loans are financial assets with fixed or determinable payments that are not quoted in an active market and created by the Bank providing money to a debtor. Loans comprise loans to employees.

At subsequent reporting dates they are carried at amortized cost, less any impairment loss recognized to reflect irrecoverable amounts.

Held-to-maturity

Investments held to maturity are financial assets with fixed or determinable payments and fixed maturities that the Bank has the positive intent and ability to hold to maturity.

Held to maturity investments are recognized on a settlement date basis and are initially measured at cost. At subsequent reporting dates they are carried at amortized cost, less any impairment loss recognized to reflect irrecoverable amounts.

Available for sale investments

Available for sale investments are recognized on a settlement date basis and, after initial recognition, are reflected in the financial statements at fair value. Gains and losses arising from changes in fair value are recognized directly in equity in the investments revaluation reserve with the exception of impairment losses. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognized in the investments revaluation reserve is included in profit or loss for the period.

BANK OF ALBANIA**NOTES TO THE FINANCIAL STATEMENTS****AS AT MAY 2008****(all amounts are expressed in million LEK, unless otherwise stated)****2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****(e) Financial assets (continued)****Financial assets at fair value through profit or loss**

This category comprises financial assets classified as held for trading and that the Bank maintains for short term profits. Those are recognized and derecognized on a trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value. Any realized loss/profit in the fair value is directly recorded in the income statement

Fair values

For investments traded in organized financial markets, fair value is determined by reference to stock exchange quoted market bid prices at the close of business on the balance sheet date.

For investments where there is no quoted market price, a reasonable estimate of the fair value is determined by reference to the current market value of another instrument, which is substantially the same.

Impairment and uncollectability of financial assets

Financial assets, other than those “Held for trade”, are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted. For financial assets carried at amortized cost, the amount of the impairment is the difference between the asset’s carrying amount and the present value of estimated future cash flows, as follows:

- For loans originated by Bank – the recoverable amount of originated loans is calculated based on the year-end evaluations of loans, including the accrued interest. In determining the recoverable amounts of loans to employees, management considers the particular factors, including the review of repayment history of the debt by its former employees. The provision for impairment losses on loans is reported in the income statement as a charge and is deducted from the relevant asset category on the balance sheet. When it is determined that a loan cannot be recovered, all the necessary legal procedures have been completed and the final loss has been determined, the loan is written off;
- For financial assets held to maturity – the carrying amount of the asset is reduced to its estimated recoverable amount either directly or through the use of an allowance account and the amount of the loss is included in the statement of profit and loss; and
- For financial assets available for sale –when a decline in the fair value of an available-for-sale financial asset has been recognized directly in equity and there is objective evidence that the asset is impaired, the cumulative loss that had been recognized directly in equity shall be removed from equity and recognized in profit or loss even though the financial asset is owned by the Bank again.

BANK OF ALBANIA**NOTES TO THE FINANCIAL STATEMENTS****AS AT MAY 2008****(all amounts are expressed in million LEK, unless otherwise stated)****2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****(f) Repurchase agreements and reverse repurchasing agreements**

Securities purchased under agreements to resell (reverse repurchase agreements) and securities sold under agreements to repurchase (repurchase agreements) are generally treated as collaterised financing transactions and are carried at the amounts of cash advanced or received, plus accrued interest.

Repurchase agreements are recorded in the balance sheet item “Due to domestic Banks”. Based on the Bank’s regulation on repurchase agreements, the Bank is not required to put up any collateral for these securities.

Interest earned on reverse repurchase agreements and interest incurred on repurchase agreements is recognized as interest income or interest expense, over the life of each agreement using the interest rate approved by the Supervisory Council of the Bank of Albania.

(g) Fixed assets

The fixed assets are stated at historical cost less accumulated depreciation except the bank’s building, which are stated at revaluated amount, which is calculated using the replacement cost method (see Note 10). Any revaluation increase arising on the revaluation of the head office building is credited in equity to the properties revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognized in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. A decrease in the carrying amount arising on the revaluation of such land and buildings is charged to profit or loss to the extent that it exceeds the balance, if any, held in the properties revaluation reserve relating to a previous revaluation of that asset.

If the fair value of a fixed asset is lower than its carrying amount, due to circumstances not considered to be temporary, the fixed asset is written down to its fair value.

Gains and losses on disposal (sell or out of use) of fixed assets are determined as the difference between net disposal proceeds and the carrying amount of the asset and are recognized as income or expense in the statement of income and expenditure in the year of disposal.

Depreciation is provided on all fixed assets based on the historic cost except for the headquarter building, which is stated at revaluated amount. The annual charge for depreciation is computed using the straight-line method, using rates specified for each depreciable asset based on estimated useful lives. The estimated useful lives applied during 2008 are the same as year 2007:

| 2008 | |
|-----------------------------------|------------|
| Building – Head office | 40 years |
| Buildings – At branches | 25 years |
| Vehicles | 5–10 years |
| Furniture, fixtures and equipment | 3–20 years |
| Computer software | 2 years |

BANK OF ALBANIA**NOTES TO THE FINANCIAL STATEMENTS****AS AT MAY 2008****(all amounts are expressed in million LEK, unless otherwise stated)****2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****(h) Printing and minting cost**

The costs of printing Banknotes and minting coins are capitalized as intangible fixed assets and amortized over 2.5 years and 10 years, respectively.

(i) Taxation and profit allocation

The Bank is not subject to income tax based on the law “On Bank of Albania” and referring to it the Bank allocates all the realized profit to the State Budget after having fulfilled its entire requirement for reserve fund as required from the Supervisory Council of the Bank of Albania.

(j) Legal Reserve

In accordance with the “Law on the Bank of Albania”, the Bank has established a legal reserve into which 25% of the net profit for the year is transferred until the reserve amounts to 500% of the capital.

(k) Grants

Grants are initially recorded in the balance sheet at the amount received. Grants related to expenditure items are released to income during the period of the related expenditure. Grants related to the purchase of property, equipment and software are released to income over the life of the relevant assets at an amount corresponding to the associated depreciation/amortization charge on that asset.

(l) Cash and Cash equivalents

For the purposes of cash flow statement, cash and cash equivalents is defined as cash in LEK and foreign currencies and foreign currency deposits with residual maturities of less than three months.

(m) Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results could differ from those estimates.

3. GOLD AND PRECIOUS METALS

28. RISK MANAGEMENT

The foreign reserve is under the administration of the Bank of Albania and its investment are performed by the Monetary Operations Department, which is based on the regulation "On foreign reserve management policy", approved by the Supervisory Council. The reserve, in accordance with the liquidity needs, is invested in short-term securities and in fixed coupon instruments.

Liquidity risk

Policies to monitor and address liquidity risk are set by the Supervisory Council of the Bank. The Monetary Operations Department of the Bank monitors the liquidity risk on a continual basis by analyzing liquidity ratios, gaps and economic scenarios. The Bank manages its liquidity risk by investing in short term deposits with foreign Banks.

Liquidity management policies are set to ensure that, even under adverse conditions, the Bank is in a position to meet its obligations.

Credit risk

The Monetary Operations Department of the Bank, under the control of the Supervisory Council, is responsible for assessing the credit risk associated with the Bank's operations. The credit risk is mitigated by the Bank transacting largely with international and governmental institutions. Loans to domestic Banks are secured by Government of Albania treasury bills.

Price risk

BANK OF ALBANIA**NOTES TO THE FINANCIAL STATEMENTS****AS AT MAY 2008****(all amounts are expressed in million LEK, unless otherwise stated)**

The key elements of price risk affecting the Bank are:

- currency risk associated with fluctuations in the fair value of financial instruments due to changes in foreign exchange rates; and
- interest rate risk associated with fluctuations in the fair value of financial instruments due to changes in market interest rates.

The Bank's exposure to currency risk is monitored on a continual basis by the Monetary Operations Department. Financial assets denominated in foreign currencies are disclosed in each relevant note to the financial statements.

The Monetary Operations Department of the Bank monitors interest rate risk. The Bank mitigates such risks by maintaining a significant excess of interest bearing assets over liabilities. The Bank maintains a portfolio of interest bearing financial assets and liabilities such that the generated net interest income is significantly in excess of operating requirements, which minimizes the potential adverse effects of interest rate fluctuations. Interest rates applicable to financial assets and liabilities are disclosed in each relevant note to the financial statements.
